

Electrical SAFETY (UK)

ADVICE • TRAINING • ASSESSMENT

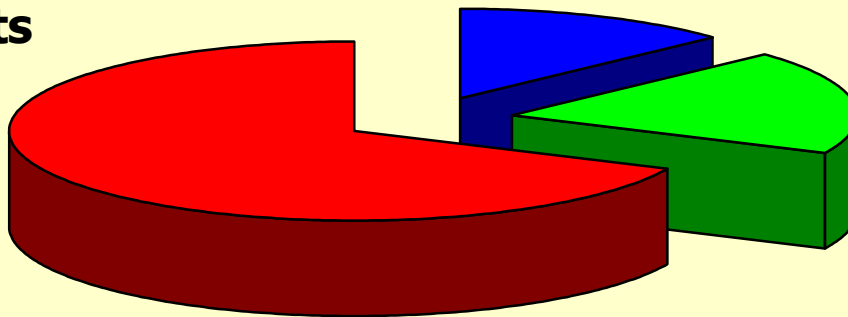

Electrical Safety (UK) Ltd is a company dedicated to the health and safety of workers in industry who are engaged in electrical work.

WHEN IT COMES TO ELECTRICAL SAFETY WHICH BIT OF THE 80:20 RULE DO YOU FOLLOW?

Causes of Electrical accidents

12% Other Causes

68% Inadequate Working Practices

- Safe systems of work not in place
- Employer has not provided safe working procedures
- Competence of workers

20% Failure to Maintain

- Fixed Wiring periodic testing
- PAT Testing
- Maintenance of switchgear

It is very common and understandable to find that many organisations put most effort into the maintenance of electrical systems and equipment when it comes to preventing electrical accidents. The fact is that people are the cause of most accidents through inadequate working practices and procedures. Electrical Safety (UK) Ltd is a specialist company that can save you time and money and also draw on industry wide experience in helping you to develop bespoke LV and HV electrical safety rules and procedures. We'll take care of all the publication and printing and can train your staff & contractors, carry out audits and manage your safety records.
